ARCOM and AEC Daily Announce Education Agreement

Salt Lake City, Utah and Buffalo, New York (June 20, 2007) -- ARCOM and AEC Daily announced today an agreement to jointly provide construction education programs to MASTERSPEC® Licensed Users. ARCOM is the exclusive publisher and distributor of MASTERSPEC for The American Institute of Architects and AEC Daily is the leader in distance learning for all areas of the architectural, engineering, and construction industry.

"This agreement will complement the educational programs currently available to MASTERSPEC Licensed Users," said ARCOM President and CEO, Christopher Bushnell. "By leveraging each others' strengths, the two companies will significantly improve the information services they provide to the AEC industry," said AEC Daily President, Jeff Rice.

About ARCOM

ARCOM is the exclusive publisher and distributor of MASTERSPEC, which has been the number one master specification system and the standard of the industry for over 35 years, and is a product of The American Institute of Architects (AIA). ARCOM also offers the SPECWARE® family of specification enhancement software for architects, engineers, and other design and building professionals. ARCOM has offices in Salt Lake City, Utah and Alexandria, Virginia. For more information about ARCOM and MASTERSPEC, visit www.arcomnet.com, or contact sales at (800) 424-5080, or email to sales@arcomnet.com.

About AEC Daily

AEC Daily publishes an online educational resource that provides a great variety of quality education, at no cost to the participant, in all areas of the Architectural, Engineering, and Construction industry. With over 174 courses available, and many more in production, AEC Daily is the leader in educational programs and strategies for the A.E.C. Industry.
